Field trip to Whetstone

POSTED: June 17, 2009

[Save](#) | [Print](#) | [Email](#)

The Superior Watershed Partnership will sponsor a field trip to Whetstone Brook, Marquette's signature urban watershed. Participants will meet at 9 a.m. on Saturday at the SWP office at 1030 Wright St. in Marquette. Whetstone Brook was once almost completely covered in concrete, but today visitors may view it from several places in the city and Marquette Township. SWP staff will lead participants to the headwaters, the mouth and many places in between. Participants will learn about urban river restoration, daylighting and various natural features. Space is limited and preregistration required. This event is free to SWP members, \$5 for others. For information or to register, call 228-6095 or e-mail info@superiorwatersheds.org. For more information on the SWP, visit www.superiorwatersheds.org.
